

Customer Service / Inside Sales

Join a winning team. Able Technology is an industrial distributor of high quality products with a vision for continuous improvement in Industrial Distribution.

Utilize your excellent communication and problem solving skills to help contribute to our rapidly growing organization. You will be involved with all customer related issues, data entry, inside technical problem solving resource to our customer's product application, and work closely with our sales department.

The successful candidate will have 2 to 3 years experience in a fast paced computerized customer service department, good organizational skills, highly motivated, and a team player. Some college is a plus.

In exchange for your expertise, we offer an opportunity for advancement into sales or other management opportunities within the organization, a competitive salary and benefit package, along with an extensive training and career development program. For prompt consideration:
